

**Department of Environmental Protection & Sustainability
Interoffice Memorandum**

TO: Robert R. Ryan, Manager
Watershed Restoration Section
Department of Environmental Protection & Sustainability

FROM: Kritty Udhin, P.E., Manager Stormwater Management /signed/

DATE: August 7, 2020

SUBJECT: Kelly Branch Stream Restoration, Phase II
Stormwater Management Variance
Loch Raven Watershed
Project I.D. M140141
EPS Tracking # 03-20-3282

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. Section 33-4-114 (a) (2) allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this section would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the access and construction of stream restoration and floodplain reconnection by cut and cover. The existing cover conditions will be re-established once the project is completed. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area or runoff resulting from the project.

Please contact Andrew Fish, P.E. at 410 887-3768 should you have any questions.
